Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The text of those sections of Title 35 U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

1. Claim 1 remains rejected under 35 U.S.C. 112, first and second paragraphs, for the reasons stated below.

Applicant's amendment dated 11/23/04 failed to set forth at least the following:

A. The new campanula plant is a product of a planned mutant selection and monitoring program and the new campanula originated from a mutation found by the inventor. At the bottom of the first page of the specification, it further states "The inventor selected the *Campanula* cultivar from the progeny of the above cross..." What above cross? No cross has been described. It appears that the plant was simply the product of a random mutation. In order to clarify this, the cross needs to be specified or this information should be deleted if inaccurate. Additionally, it is unclear if this plant was formed by an induced mutation or a random mutation. Finally, whether the plant was a whole plant mutation or a sport should be set forth as well.

Note: No rejection under 35 U.S.C. 103(a) was made because no publication was found describing the parent 'Marion Fischer'. It is old and well known in the art that subjecting plants to mutagens creates plants that are more compact than the parent plant. However, it would not

have been obvious to subject the variety 'Marion Fischer' to mutagens given that 'Marion Fischer' was not described in a publication more than one year prior to filing the present plant patent application.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
